

Critical Reading Task

The purpose of this exercise is to get you to start thinking about key information, what stands out to you in a text and why it may be significant.

1. Choose any free journal article by searching the subject you will be studying in Google Scholar at <https://scholar.google.com>.
2. Take a piece of paper and split it into 2 columns. In the first column write down any quotes that catch your attention, seem significant or confuse you.
3. In the second column, explain why you chose this quote.
