

TOP TIPS FOR ACADEMIC PRESENTATIONS

Too much text can be confusing. Use an appropriate sized font and choose a light, solid colour

Use visual aids like pictures and graphs but avoid too much clutter. Keep it simple and clean. Use images only if suitable

Check grammar and spelling mistakes. Don't forget to include any references you have used

Don't read or memorise your slides makes sure to have key points. Make sure your body language is open and comfortable

Don't use too many animations or slide transitions. It can be distracting and divert audience attention. Make sure you test out any audio or videos before the presentation.
