The Higher National Certificate (HNC) in Construction and the Built environment is delivered by a team of highly experienced tutors. The team work together to provide the best possible student experience and tutors at UCEN Manchester have specialised backgrounds in Architecture, Surveying and Computer Aided Design (CAD).

It is a great time to kick start a career in construction, with it being a key part of our economy and the Manchester skyline dramatically changing; development is only set to accelerate in the next few years.

This course will allow you to develop your skills, knowledge and practice in construction and is great for both students with little or no experience in the industry, as well as those with more experience. You will learn some great new skills and get to chance to work on simulated projects, learn how to survey and practice CAD.

The course will include some practical activities and each student will have access to a computer with all the state of the art software. Tutors offer practical help and guidance, and work with everyone individually to develop their skills, knowledge and confidence.

The Edexcel BTEC Level 4 Higher National in Construction and the Built Environment provides a specialist work-related programme of study that covers the key knowledge, understanding and practical skills required in the construction and built environment sector.

As a department, we apply particular focus through a selection of specialist units which may include:

- Construction Information
- Construction Practice and Management
- Construction Technology
- Individual Project
- Legal and Statutory Responsibilities in Construction
- Principles of Alternative Energy
- Science and Materials
- Surveying, Measuring and Setting Out.

Our students come from a variety of experienced backgrounds, some have been working in the construction industry for a number of years, but do not hold a formal recognised qualification; some are on trainee programmes and their employers have sent them to study with us, and some are just starting out.

Either way, UCEN Manchester offer full support and flexible patterns of delivery to suit your work commitments and lifestyle.

We look forward to you joining us!

Hannah Stansfield
Departmental Team Leader

PERSONAL EXPERIENCE

What background do the students for this course come from?

Our students come to us from many different routes. Lots of them have been working in the industry and have learned their trade but won't have the qualifications to back up their skills. Or they might have stopped their study at Level 2 or 3, had ten years working and have then decided to upskill and gain a qualification to access higher level jobs. Plus, we also find that companies approach us to ensure their employees have the right skills or to upskill.

What can students expect from the course?

The good thing about Construction at UCEN Manchester is that it's a broad course covering lots of subjects including project management, site management, quantity surveying. It gives a real overview of the many sections of industry and offers people an idea of the different aspects of construction. Whether students decide to stop at HNC Level or progress, we are there to help.

What can they expect from UCEN Manchester?

The UCEN Manchester experience is a well-rounded one. We know our students on a one-to-one basis, we know what they are capable of, and they feel comfortable talking to us. We offer a more personal teaching and learning experience.

Tell us an interesting fact about the teaching team?

We've all been adult learners and completed our HNC or degrees as older students, so we know what the issues are. We value our students and understand the effect that study has on their lives.

The Students' UNION

The Manchester College | UCEN Manchester

As a student at UCEN Manchester, you will automatically become a member of the Students' Union (SU). This gives you the opportunity to be part of an organisation run by students, for students.

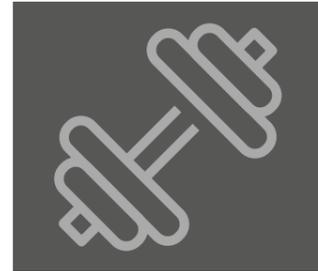

Each year, our students elect a President and a team of Officers to lead the SU and represent the student body. The SU works in partnership with UCEN Manchester to provide a wide range of activities and opportunities to enhance the experience of students.

GET INVOLVED!

SOCIETIES

Meet people with similar interests, or get involved in something completely new, by joining one of our Societies. There have been a number created, including the African Caribbean Society; Creative Writing; Creative Networking; Debating; Enterprise; Film; Football; Gaming; Knitting and LGBTQ+ societies. You can always get in touch with the SU to set up your own society if there is something else that interests you! If you have a great idea or want to know more, email us at: SU@ucenmcr.tmc.ac.uk

NUS

The SU is an affiliated member of the National Union of Students (NUS). The main job of the NUS is to represent the interests of over seven million students (including you) at a national level, especially to the UK Government. Just as we represent you at UCEN Manchester, the NUS represents you in national conversations on issues which concern and affect students.

The NUS also runs nationwide and regional campaigns on subjects that matter to students, like the cost of studying, changes to education or tackling hate crime. Every year around 1,000 elected students and officers, including representatives from UCEN Manchester, gather for an annual conference to decide the direction and leadership of the NUS for the next year.

Being a member of the NUS also offers practical benefits, like the Totum card - the UK's biggest and most widely known student discount card. You can support your SU by purchasing your Totum card from £12 per year - not a bad investment for something that will save you money all year!

CAMPAIGNS

Running a campaign is all about raising awareness on an important issue, or creating positive change. An example of a high-profile campaign led by the SU is the Single Use Plastics Campaign, which resulted in positive changes in the catering department and raised awareness among students. A variety of changes continue to be made.

REPRESENTATION

Do you want to shape the direction of the SU? You might want to think about becoming a student representative so you can vote in elections, contact your union with suggestions for improvements to the student experience, or even become an elected SU Officer.

The role of a student rep is to proactively seek and represent the views, questions and experiences of your academic peers to staff. Student reps work in collaboration with UCEN Manchester to improve the student academic experience and each student rep is responsible for representing students in a specified course group.

Student reps share views on a wide variety of issues relating to their course from learning and teaching methods; research; assessment; support provided by personal tutors or supervisors; learning and research; facilities and academic events.

HOW TO APPLY

Applying for a course at UCEN Manchester is simple. The process depends on whether the course you are applying for is full or part-time, so we have put together everything you need to know below.

FULL-TIME COURSES STARTING IN SEPTEMBER 2020 AND JANUARY 2021

If you are applying for a full-time Honours Degree, Foundation Degree (including those with a preparatory year), Higher National Certificate or Diploma, you will need to apply via UCAS. You can search for a course on our website ucenmcr.tmc.ac.uk, or through UCAS courses. Please note that not all of our courses have both a September and January start date. Please check the website for further details.

You can start your application on UCAS apply – you will need to register and create a user account. This means you can complete your application at your own speed and track your application after you have submitted it.

Remember, you can only submit one UCAS application per cycle, so all the courses you want to apply for have to be on the same application. There are some helpful resources on the UCAS website if you encounter any problems.

If you are applying to UCEN Manchester, you will need our institution code 'M10' for when you complete your UCAS application.

YOUR UCAS BUZZWORD

If you are currently at school or college, you will need a buzzword from your tutor or careers advisor. This is like a password unique to your school or college that allows you to register your application with UCAS. Your school or college will then add a reference and submit your application.

Your tutor or careers advisor can explain how you apply to UCAS and whether there are any internal deadlines you need to stick to.

DEADLINES FOR APPLYING

Please check the UCAS website: www.ucas.com for key application deadlines.

MATURE STUDENTS, OR THOSE NOT CURRENTLY AT SCHOOL OR COLLEGE

UCEN Manchester encourages all applications, including those from people who are returning to education after a time away.

This is your opportunity to tell us about any additional skills or experience you may have, as well as why you want to study your chosen course. You can include examples of voluntary or work experience, as well as career aspirations and personal qualities that will help you study.

You will also need to provide details of a referee who can confirm your suitability to study at higher education level.
